PHILADELPHIA, WED'Y, JAN. 5, 1910.

The old established firm of F. Weber & Co., 1125 Chestnut street, with branch houses in St. Louis and Baltimore, state with an emphasis that has no mistaken meaning that they are in better shape for 1910 than ever before, with an extensive supply of all kinds of goods, instruments, etc., including artists' materials, in unlimited quantities to meet the requirements of architects, engineers and artists in every particular. Their importations of foreign goods, with a view of preparing for the increased prosperity which is self evident for 1910, have been the heaviest ever made by this firm. The firm's position as a supply house is unequalled by that of any other house of the kind in the whole country, being in direct contact and, in many instances, the selling agents for manufacturers for lines outside of the scope of their own manufacturing interests, thereby avoiding intermediate profits and being able to establish a range of prices below that of competing houses in the same lines, thus affording a great saving in cost to purchasers of material and instruments, which, in providing for a year's necessities from time to time, can be justly regarded as worthy of important consideration. Experts in their special lines are at the head of each department, who are frequently asked for advice which is cheerfully given on all subjects. It is impossible to enumerate the various articles carried by this firm constantly required by builders and contractors, as well as the professional gentlemen above enumerated. It is proper to add that what you require can be found at F. Weber & Co., at 1125 Chestnut street.

We are indebted to Samuel H. French & Co. for their desk memorandum calendar for 1910. It is both useful and ornamental, occupying but little room on the desk, and is the most serviceable thing in the world on which to jot down memoranda as to business

engagements, etc., however far ahead they may be on the day and date the same are due. In the way of introduction we quote from the cover the firm's New Year greeting: "1910 means a new era of good times to you and to us, will you not join with us in our efforts to bring the best of these good times quickly? A word from you will bring our catalogue to you with concise information about French's Paints and Varnishes, Mortar and Cement Colors, Dexter Portland Cement, Plaster and Builders' Supplies, Tile, Mantels and Fire Place Goods. Each department of our business is so organized as to give the individual service necessary to supply your wants quickly and efficiently."

1909

Complete tables of building operations of all kinds; also transfers of real estate for the twelve months of 1909.

10,393 new buildings of all kinds costing exclusive of the land, \$34,751,212; against 6,495 new buildings, erected during the twelve months of 1908, costing \$21,932,161, a gain of 3,898 in the number of operations and \$12,819,051 in the investment.

2,644 alterations and additions costing \$3,966,000, or 296 more than in 1908, with an increase in the investment of \$444,000.

21,513 transfers of real estate during 1909 representing a value of \$93,771,041.86, against \$20,276 in 1908, with a value of \$98,396,083.92, an increase of 1,237 in the number of transfers, but a decrease in the value of the properties conveyed of \$4,625,042.06.

NOTE—Alterations and additions costing \$300 and over only are included.

There is great reason for congratulation in the result obtained by a comparison of the building operations of the year 1909 with those of the previous year, 1908. It will be seen by the tables which follow that the increase this year is in the two and three-story dwellings, office buildings over two stories, the industrials, churches, and miscellaneous buildings. In the last are included moving picture establishments, which heretofore have not figured to any extent in the building operations of the city. This year they number nineteen and represent an investment of nearly three hundred thousand dollars.

We give yearly table of two, three and four-story dwelling construction since 1887, inclusive:

The cost will be \$250,000. The plans are by Architect N. W. Woods, of Memphis.

At Roanoke, Virginia, the Wasena Land Company, with a capital of \$100,000, will make improvements to their tract. Streets will be graded, concrete sidewalks constructed, water and sewer pipe laid, two steel bridges will be built across Roanoke river, etc., and an electric lighting system constructed for residential purposes. P. S. Miller is the president and H. C. Barnes, vice-president; J. McGhee, secretary and treasurer.

At New York, Clinton & Russell, architects, 32 Nassau street, have the commission to design the new store and office building to be erected at the northeast corner of Forty-second and Broadway for a syndicate. It will be used by the United Cigar Stores Co.—The following is a list of architects selected by the Robert Fulton Monument Association, 3 Park Row, to enter the final contest for the new Fulton Memorial monument to be erected in Riverside Park, to cost over \$2,000,000: Mills & Greenleaf, 345 5th ave, N. Y. C.; Chas. F. Huntington, 18 West 31st st, N. Y. C.; Lawrence F. Peck and Ford, Stewart & Oliver (associated), 103 Park ave, N. Y. C.; J. H. Freedlander, 244 5th ave, N. Y. C.; Bosworth & Holden, 1170 Broadway, N. Y. C.; Herbert Scott Olin, Watertown, N. Y.; H. Van Buren Magonigle, 7 West 38th st, N. Y. C.; Albert Kelsey & Paul Cret, Philadelphia, Pa.; Heacock & Hokanson, Philadelphia, Pa. The competition closes on February 15.—Schwartz & Gross, architects, 347 Fifth avenue, have finished plans for the twelve-story brick, terra cotta and limestone

loft building, 108 x 100 feet, to be built at 40 to 44 West Twentieth street, to cost about \$400,000, for the Fabian Construction Co., 3853 Broadway.—Work will shortly be begun by the Einsworth Construction Co. on the twelve-story apartment house, 75 x 92.9 feet, at the corner of Riverside drive and 113th st. Plans by Neville & Bagge, architects, 217 West 125th street.—Shampan & Shampan, 772 Broadway, Brooklyn, have plans in the course of preparation for 4 four-story apartment houses to be built on East 21st street, near Beverley road, for the Abels-Gold Realty Company. They will measure 24 x 84 feet, and be built in the Elizabethan style of architecture with all modern appointments, such as sanitary plumbing, steam heat, electric lighting, wall safes, garbage closets, etc. The same architects have finished plans for two brick duplex residences, to be built by the same company on the east side of 15th street, above Foster avenue. Bids will be taken by the owners on materials from sub-contractors.—Cohen Bros., architects, 474 Rockaway avenue, Brooklyn, have completed plans for eight two-family duplex dwellings, 20 x 40 feet, four stories in height, to be built on the north side of Clarendon road, east of 25th street, to cost about \$15,000, for Tupples Bros., builders, 1396 Eastern Parkway.

We are in receipt of a copy of William Heyny's Modern Lettering from the publisher, William T. Comstock, 23 Warren street, New York. Modern Lettering is a book containing valuable information for architects, builders, decorators, artists, draughtsmen, etc. It contains 136 pages, oblong in shape, 7 x 10 inches. The author, a man of experience and of artistic temperament, boldly sets forth his ideas and propounds his methods in concise language. Directions even to minute details are given, all of which are valuable to the student. The Roman letters taken as the fountain head of all present systems, are exhaustively dealt with. Their construction is treated in the text, letter by letter, and the author's methods of drawing the "Modern Roman" alphabet are delineated in six full-page plates. The alphabets treated and shown in the plates are Modern Roman, Classic Roman, French Roman, Antique Roman, Ornamental Roman and Century Roman, Roman Italics, Plain Round, Square and Spurred, Block and Ornamental Block Letters, Architects' Single Stroke Alphabets, Modern Script, German Gothic, Old English and Modern Uncials. The plates are all on a large scale and the letters are clear and sharp. The French Roman is a new letter in this country and will be appreciated for its refinement, beauty and legibility. The lower case letters are a feature of the book. For every alphabet of capital letters, a complete lower case alphabet is shown, and a full set of numerals. From the practical standpoint of use, the book is excellent. Treated in four parts, each heading in the contents is emphasized in italics in the text which facilitates reference. There is also an index. The price is \$2.00 per copy.

GINGER!

GINGER!!

GINGER!!!

The placing of orders recently by several of our Eastern Railroads for 325,000 tons of steel rails, means an infusion of *ginger* in industrial energy far beyond the comprehension of most men. Follow, if you can, the potent influence this will have on labor. The labor involved in getting the iron ore; the making of hundreds of thousands of tons of steel rails, and their transportation; the laying of the rails; the new ties that will be used and the labor involved in their production as well as the labor in placing them. Yes, labor, labor, labor in every direction, even to the turning of the wheels over these self same thousands of tons of steel rails. It is the *ginger* in business that pushes things onward and upward, until the whole world is amazed at the wonderful prosperity of the people of the United States. There is *ginger* in the knowledge as to who needs you, who must make contracts for work and material. The columns of the REAL ESTATE RECORD are filled weekly with this kind of *ginger*, and there are thousands right here who know it. This *ginger* costs but little. Subscribe now and cash up. REMOVAL OF THE H. B. SMITH CO

The H. B. Smith Company, manufacturer of the celebrated hot water and steam Mercer Boilers and Radiators, have removed to 1225 Arch street. Greatly increased business necessitated greater facilities as well as a more central location. The office facilities will be better and the display room will be equal to that of the old quarters in every particular. It would seem superfluous to accentuate the superiority of the above boilers and radiators in as much as they are the oldest in use and through their merit have established for themselves a popularity not yet reached by any others in the market.

The present year, 1910, is the diamond announcement year of the Delaware Insurance Company, of this city. The company was originally formed at Chester, Delaware County, Pa., and was called the Delaware County Insurance Company, under which name it did business until 1838, when it removed to Philadelphia and continued business until 1843, when the name was again changed to the Delaware Mutual Safety Insurance Company. In 1855 it erected and moved into its present spacious office building at Third and Walnut streets. In 1890 the mutual plan was eliminated and the company's name again changed to that of the Delaware Insurance Company of Philadelphia and became actively engaged in fire insurance underwriting.

GINGER!

GINGER!!

GINGER!!!

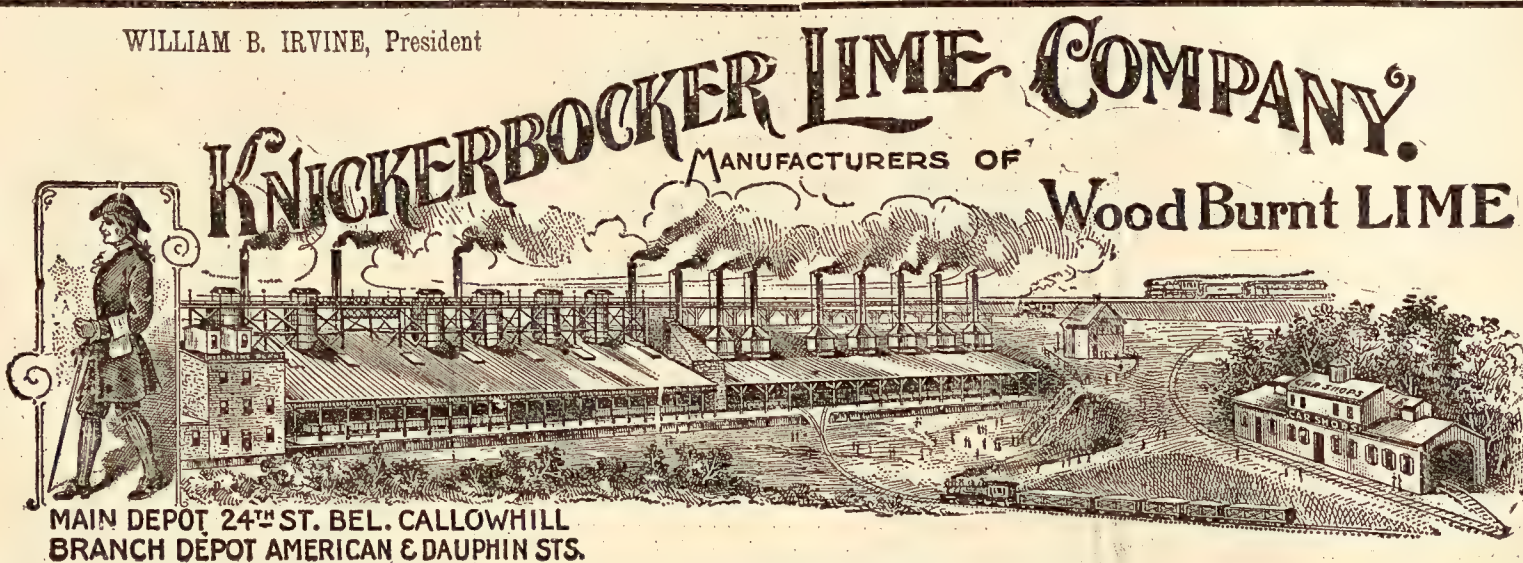

The placing of orders recently by several of our Eastern Railroads for 325,000 tons of steel rails, means an infusion of *ginger* in industrial energy far beyond the comprehension of most men. Follow, if you can, the potent influence this will have on labor. The labor involved in getting the iron ore; the making of hundreds of thousands of tons of steel rails, and their transportation; the laying of the rails; the new ties that will be used and the labor involved in their production as well as the labor in placing them. Yes, labor, labor, labor in every direction, even to the turning of the wheels over these self same thousands of tons of steel rails. It is the *ginger* in business that pushes things onward and upward, until the whole world is amazed at the wonderful prosperity of the people of the United States. There is *ginger* in the knowledge as to who needs you, who must make contracts for work and material. The columns of the REAL ESTATE RECORD are filled weekly with this kind of *ginger*, and there are thousands right here who know it. This *ginger* costs but little. Subscribe now and cash up. Subscription \$5.00 per year always in advance.

GINGER!

GINGER!!

GINGER!!!

The placing of orders recently by several of our Eastern Railroads for 325,000 tons of steel rails, means an infusion of *ginger* in industrial energy far beyond the comprehension of most men. Follow, if you can, the potent influence this will have on labor. The labor involved in getting the iron ore; the making of hundreds of thousands of tons of steel rails, and their transportation; the laying of the rails; the new ties that will be used and the labor involved in their production as well as the labor in placing them. Yes, labor, labor, labor in every direction, even to the turning of the wheels over these self same thousands of tons of steel rails. It is the *ginger* in business that pushes things onward and upward, until the whole world is amazed at the wonderful prosperity of the people of the United States. There is *ginger* in the knowledge as to who needs you, who must make contracts for work and material. The columns of the REAL ESTATE RECORD are filled weekly with this kind of *ginger*, and there are thousands right here who know it. This *ginger* costs but little. Subscribe now and cash up. Subscription \$5.00 per year always in advance.

The property at 1217 Chestnut street, it is said, has been leased by the Horn & Hardart Baking Company, to be fitted up for restaurant purposes. F. Russell Stuckert, architect, 1420 Chestnut street, prepared the plans for the handsome new fireproof restaurant recently erected by the Horn & Hardart Company, on Tenth street below Walnut.

Milligan & Webber architects, 520 Walnut street, are revising the plans for the proposed eight-story brick and terra cotta building, measuring 45 x 113.2 feet, to be erected at 228 to 232 North Thirteenth street, for Mer-shon Brothers.

A site in League Island Navy Yard has been donated by the Government for the proposed new naval Y. M. C. A. building, to be erected at that place. Alba B. Johnson, chairman of the building committee, states that it will be located on the main street of the yard near the entry gates. Previously noted.

ARCHITECTS' NOTES.

E. Allen Wilson, architect, 815 Land Title Building, has preliminary plans in the course of preparation for a four-story brick and stone apartment house, to be built at Fifty-first and Walnut streets, to cost \$100,000. The owner's name is withheld for the present. The same architect has finished plans for four two-story brick and stone flat houses, to be erected at Fifty-sixth and Pine streets, for Frederick Sabin. The plans call for structures in the Moorish style of architecture, measuring 20 x 80 feet each. They will each contain two flats and will be finished in birch and natural color. Each flat will have six rooms and a porch, besides storage rooms in basement, heated by hot water; electric lighting and all other modern improvements, which will make the flats attractive and comfortable. The same architect has also completed plans and specifications for eighty-eight houses, to be erected at Fifty-seventh and Pine streets, by the Model Building Company. These houses are two stories, nine rooms, finished in hardwood, hot water and steam heating, electric lighting, with a new style of fronts. Those on Fifty-seventh street being in modern Colonial style, using red press brick and black headers, white marble and white trimmings, those on Pine street being designed in an English style will be built with iron spot brick with dark trimmings. Plans will be posted for estimates in Mr. Wilson's office. The same architect has completed plans for seven two-story houses, to be erected at Thirteenth and Westmoreland streets, for Jno. H. McClatchy. These houses are of different plans, containing eight and nine rooms each, Port Deposit granite fronts with porches, tile and slag roofs. All modern conveniences.

Thomas S. Bennett, architect, Betz Building, is preparing plans for a four-story flat house, measuring 27 x 150 feet, to be built in West Philadelphia.

The Lower Merion Realty Co., Land Title Building, has sold fifteen and a half acres of ground on Belmont avenue, Cynwyd, Pa., to P. H. Clark and a tract of ground in Cynwyd to L. Stanley King.

Savery, Scheetz & Savery, architects, Stephen Girard Building, have distributed plans for estimates on the two and a half-story stone and rough cast residence, 28 x 35 feet, with a 15x20 foot wing, to be built on Pom broke road, Cynwyd, Pa., for Kershaw & Robbins. Metzger & Wells and A. L. Fretz & Son, builders, are estimating. The same architects have awarded a contract to Chas. T. Moore for the new residence, to be built in Moylan, Pa., for W. W. Jacobs.

Sauer & Hahn, architects, 1112 Chestnut street, have plans on boards for a handsome brick and terra cotta apartment house, measuring 84 x 155 feet, to be erected at Fifty-first and Walnut streets. It will be finely fitted up with seven suites containing seven rooms and bath each. There will be provision made for a bachelor apartment on each floor.

H. Baechlin, architect, 45 Clinton street, Newark, New Jersey, has prepared plans for a building, to be erected at the northwest corner of Bleecker and Halsey streets, for the Fairchild & Baldwin Company, 185 Market street. It will be six stories high, fireproof in construction, of brick and re-inforced concrete. It will be well finished throughout and provided with the usual conveniences. The ground floor will be fitted up for store purposes. The architect is ready for bids.

Ballinger & Perrot, architects and engineers, 1211 Arch street, have distributed revised plans among builders for estimates on St. Agnes' Parochial school building, to be erected in West Chester, Pa. W. E. Dotts & Co., Thomas Reilly, Michael Melody, Realty & Construction Co., P. J. Hurley, M. P. Murphy, William J. McShane, Parke Thompson, William Elliott, C. R. Baldwin, Smedley & Hoopes, Daniel S. Sullivan, Joseph Burns, William Jones and E. P. Jervis are estimating.

Henry C. Pelton, 10 East Twenty-third street, New York City, has been commissioned to prepare plans for the new high school, to be erected by the Board of Education of Long Branch, New Jersey. It will be three stories high, of brick, with stone and terra cotta trimmings. It will contain a large and well equipped gymnasium, and a large assembly hall. The interior will be well finished throughout, and all modern conveniences will be provided. The estimated cost is about \$125,000.

Carl P. Berger, architect, 1416 and 1418 South Penn Square, has finished plans and specifications for the new vaudeville theatre for the Jumbo Amusement Company, northeast corner of Front street and Girard avenue. Building 100 x 150 feet, seating 2,000, exterior in brick and stone, interior entirely fire proof, re-inforced concrete roof and floors steel trusses. These bidders are to submit bids on Monday, February 7th: Sax & Abbott, Herman Voigt, Thos. C. Trafford, Geo. Hogg, Edward Fay & Son, Geo. A. Glenn & Co., H. B. Deal Co., and W. C. Heyser.

The Oak Lane Baptist Church of Philadelphia has taken title to the tract of ground measuring 168 $\frac{1}{4}$ x 127.8 feet, on the east side of Twelfth street, below Oak Lane, upon which it is proposed to erect its handsome

new stone edifice. The plans are by Architect E. C. Hussey, and call for a granite structure, 80 x 78 feet, in the Gothic style of architecture. A two-story Sunday school, 50 x 82 feet, will be erected in the rear. Bids for its erection will shortly be asked for. The sale of the ground was negotiated by J. T. Jackson Co., southeast corner of Thirteenth and Chestnut streets.

F. H. Koernigsburg, 1 Madison avenue, New York City, has prepared plans for a factory, to be erected in Jersey City, New Jersey, on a large site on West Side avenue, recently bought by the New York Baking Powder Company, 102 Murray street, New York City. The structure will be 120 x 100 feet, of re-inforced concrete. The cost will be about \$75,000.—Bradford Lee Gilbert, architect, 1 Broadway, New York City, has completed plans and awarded the general contract to Donald Mitchell, 306 West Fifty-third street, New York City, for the erection of a fire-proof manufacturing plant, 300 x 600 feet, at Gates and Garfield avenues, Jersey City, New Jersey. The estimated cost is \$100,000. The Wm. M. Crane Company (gas appliances), 20 West Thirty-second street, New York City, is the owner.

The judges of the courts, the county controller and the county commissioners of Allegheny county, Pa., have agreed to erect a twelve-story annex to the present court house at Pittsburg, Pa. The county commissioners will agree upon and submit rules which will govern the selection of an architect, and it is said that the competition will be confined to the architects of Allegheny county. Two noted Eastern architects of National reputation and a local authority will act as a committee to select the best plan from those sent in. A prize of one thousand dollars will probably be given to each of the five architects whose plans rank next in order to the ones selected for the proposed building. It is thought that plans will be called for in a short time and the decision made by April 1st, so that work can be started by June 1st. County Engineer Chalfont has prepared a rough plan of the proposed structure which will be used as a basis by the architects submitting plans. Bonds will be issued to cover the cost of the structure, which will be about \$1,250,000. It will be erected upon the site owned by the city, and bounded by Diamond and Ross streets, Fourth avenue and the alley connecting Grant street and Fourth avenue. It will cover one-fourth of the block and will be designed with a view that other buildings will be erected to cover the entire block, the group to harmonize architecturally. It will be fireproof in construction, and will be provided with every modern convenience.

UNITED FIREMEN'S INSURANCE CO.

The statement of the United Firemen's Insurance Company appears in this issue. It is particularly interesting because it truly represents the improvement in every direction of 1909 when compared with the two previous years. The net earnings not only show a decided gain in both business and profit, for indeed, the result is particularly gratifying from the fact that the directors were able to increase the surplus by \$32,997 additional. Of course, this handsome result is the natural effect of careful management in the acceptance of risks as well as increased business. Another important factor, however, is in the fact that this company has the second largest perpetual fire insurance business in the City of Philadelphia. The late Joseph L. Caven, as well as the late Holstein De Haven, both of whom were president of the Real Estate, Title & Trust Co. when death overtook them, were also directors of the United Firemen's Insurance Co. at the time of their deaths. The officers of the company are: President, Col. Robert B. Beath; vice-president, Dennis J. Sweeny; secretary, Henry A. Knabe; assistant secretary, William G. Wible.

During the month of January permits have been issued for the following work:

Two-story dwellings	166
Three-story dwellings	66
Office buildings	1
Warehouses	1
Factories	5
Engine and boiler houses	2
Stores	1
School houses	3
Stables	3
Alterations and additions, costing \$300 and over	56

The miscellaneous buildings include four garages, an orphanage, a railroad station and incinerating plant, a grand stand and four tenements.

ARCHITECTS' NOTES.

ARCHITECTS' NOTES.

E. Allen Wilson, architect, 815 Land Title Building, has been commissioned to prepare plans for eight pairs of suburban houses, to be erected in Germantown, at a cost of \$10,000 each. To be designed in the Spanish, Colonial and English styles, containing eleven rooms each, hot water heating, electric lighting, hardwood finish, hardwood floors, tile bath rooms. The same architect has also been commissioned to prepare plans and specifications for the following: A theatre building, to be erected in the southern part of Philadelphia, for the Colonial Amusement Company. Preliminary plans are now being prepared. The building to have a seating capacity of 1500; to be fire-proof, designed in the Moorish style of architecture. Estimated cost, \$30,000; an operation of twenty-five houses, to be erected at Twenty-third and Cambria streets, by E. Allen Wilson, architect, for Mr. J. C. Lukens. Also, plans for alterations to the property at the northwest corner of Sixty-fifth and Woodland avenue, changing the present dwelling house into a store property, for Mr. Alexander W. Harkins. Alterations consist of new front building, porch, new side entrances, rearrangement of heating, etc. Plans have been completed by the same architect for an operation of twenty-four two-story, nine room porch front houses, to be erected at Fifty-fifth and Webster streets, for Wm. A. Lechler. James W. Orr has commissioned the same architect to prepare plans for twenty-nine three-story stores and dwellings, to be erected at Kensington avenue and Westmoreland street. They will measure 18 x 56 feet and will contain twelve rooms with the exception of the corners, which will be large triangular buildings, containing stores on the first floor and apartments above.

It is stated that C. F. Miller, real estate dealer, Bethlehem, Pa., has bought ground, including about four blocks, at Bethlehem, on which nearly five hundred dwellings will be erected. Work on this operation will begin in a short time. A number of these dwellings will be occupied by employes of the Bethlehem Steel Works, brought to Bethlehem by the projected enlargement of the steel works by Mr. Chas. M. Schwab. The ground lies between Sixth and Eighth avenues and Spring and Lehigh streets.

Jacob Naschold, architect, 514 Walnut street, has plans in the course of preparation for a two-story residence, measuring 34 x 25½ feet, to be erected in Glenside, Pa., for Harry Reeder.

It is stated that the Allegheny County Juvenile Court Association at Pittsburg, Pa., has secured a site at Downieville, Pa., on

which to erect a large industrial home for juvenile court prisoners of Allegheny county. The estimated cost is about \$500,000.

Bailey & Bassett, architects, 421 Chestnut street, have plans on boards for the proposed new Science Hall building, for Haverford College. The plans will call for a two-story and basement stone structure, 53 x 100 feet.

Estimates have been invited by Roland W. Boyle, architect, 1626 Chestnut street, on the new edifice, to be erected in Langhorne, Pa., for a new Catholic congregation. D. W. O'Dea and James Doyle's Sons are estimating.

Sauer & Hahn, architects, 1112 Chestnut street, have the commission to prepare the plans for the new school and hall building, to be erected on Broad street, above Columbia avenue, for Keneseth Israel Alumni Association. The plans will call for an attractive brick and stone structure.

Harbert, Claghorn & Hood, 1218 Chestnut street, have sold a seven-acre tract of ground above St. David's Station, on the Paul Road and Valley View Drive, to a purchaser who has had plans prepared for the erection of a handsome residence and garage, to be erected on the site by Mrs. Florence L. Justice.

Herman Miller, architect, 1420 Chestnut street, is engaged on plans for alterations and improvements to the residence of Colonel John M. Lane, in Hagerstown, Md. The same architect is also planning a seven-story brick and stone apartment house, to be erected at the same place.

B. B. Lister, 5847 Germantown avenue, has sold a large tract of land at the northeast corner of Moreland avenue and Towanda street, measuring 250 feet on Moreland avenue and 190 feet on Towanda street, to Charles S. Bromley, who will erect a handsome stone residence on the site.

Watson & Huckel, architects, 1211 Walnut street, have invited estimates on alterations and additions to the property at 242 and 244 South Third street, for Wolf Klebausk. The improvements call for interior and exterior alterations to be used for bank purposes. Arthur H. Williams Sons, Edward Fay & Son, and Frank T. Maguire, builders, are estimating.

Heacock & Hokanson, architects, Bailey Building, have been engaged to design the proposed new club house, to be erected in Lansdowne Court, for the Twentieth Century Club of Lansdowne, on a site measuring 90 x 178 feet. The plans will call for an attractive brick and rough cast structure measuring 50 x 90 feet, with every modern club house appointment.

Brown & Leonard, 24 South Fifty-second street, have sold a tract of ground at the southwest corner of Fifty-fourth and Chestnut streets, measuring 235 feet 10½ inches, on Chestnut street, by 215 feet 2 inches deep, to a purchaser who will erect an apartment house on the site, from plans by E. Allen Wilson, architect, 815 Land Title Building.

The Philadelphia, Germantown and Norristown R. R. Co., Mariner and Merchant's Building, southwest corner of Third and Chestnut streets, has sold the tract of ground measuring 223 feet 10 inches, on Laurens street, and 500 feet on Coulter street, to B. D. Gardner, who will erect an operation of eighty-three two-story brick dwellings upon the site.

E. Allen Wilson, architect, 815 Land Title Building, has completed plans for sixty-one two-story houses, to be built at Fifty-ninth and Webster streets, for a private owner. The plans will be posted and bids called for at the architect's office, on Monday. The entire work will be done under the supervision of Mr. Wilson. The same architect has finished plans for ten two-story houses and a store for Messrs. Spear and Maloney. These buildings are to be erected at Sixty-first and Master streets, and bids will be called for by the owners within a few days.

At Miami, Florida, R. E. Hall, superintendent of the Board of Public Instruction, will receive tentative plans until March 3d, for a high school building, preferably concrete, with assembly hall; seating capacity 150; five class-rooms, physical and chemical laboratories, library, principal's office. It is proposed to build a large addition later.

Ballinger & Perrot, architects and engineers, 1211 Arch street, have invited bids on the four-story brick and concrete stable, measuring 62 x 100 feet, to be erected on Bodine, American and Green streets, for the Acme Tea Co. The following builders are estimating: J. E. & A. L. Pennock, George F. Payne & Co., Irwin & Leighton, William R. Dougherty, Appleton & Burrell, Cramp & Co., the P. Haibach Contracting Co., and George Kessler. Bids are due February 24.

Professor Thomas H. Montgomery, of the University of Pennsylvania's department of zoology, states that practically all the money has been raised for the proposed new \$250,000 biological building, to be erected on the campus. He states that it is proposed to erect a three-story structure, with 30 rooms and abundant skylight space, a large number of 7 x 7 windows being provided for in the plans. There will be a number of small laboratory rooms, 12 x 20 feet in dimension, a main laboratory on the ground floor and an auditorium seating 400 persons.

Architects Ludlow & Peabody, 12 West Thirty-first street, and Architect Henry J. Hardenbergh, 47 W. 34th street, New York associated, have completed plans for the new Fort William Henry Hotel, to be erected at Lake George, to replace the hotel destroyed by fire some time ago. It will be four stories high, 200 x 450 feet, with wings, 28 x 45 feet, and 60 x 45 feet. The exterior will be of brick and terra cotta, steel frame construction, hardwood finish, all modern conveniences. The cost will be \$300,000. The Delaware & Hudson Co., 32 Nassau street, New York City, is the owner. L. F. Lorce

is president of the company and C. A. Walker is the treasurer. Bids for the construction will be received about March 1, 1910.

An expenditure of over \$3,000,000 in motive power has been authorized by the Baltimore & Ohio directors in furtherance of the plans of the new president, Daniel Willard. Providing for heavier motive power than ever before employed upon the road necessitates increased width and height at various points and former difficulties experienced with the water supply are to be obviated by the construction of a 90,000,000 gallon reservoir with a pipe system. The enlargement and reconstruction of yards, new helper stations are other provisions within the latest approval. Of the \$8,000,000 appropriations voted last week, \$5,000,000 will go into roadway improvement, largely at points where congestion is likely to occur. Much work is to be done on the mountain sections of the road, where two tunnels are to be eliminated entirely and third running tracks laid at the approaches to others.

Rowland W. Boyle, architect, 1626 Chestnut street, has plans nearly finished for the proposed new parochial school building, for St. Charles Borromeo's Roman Catholic Church, of Burmont. The plans will call for a two-story brick structure, measuring 56 x 100 feet, to cost about \$20,000. Plans have been completed by the same architect for two three-story brick stores and dwellings, to be erected at the southwest corner of Fiftieth street and Baltimore avenue, and 5033 Baltimore avenue, for Misses Kelly. The following builders are estimating: F. T. McGuire, John McShain, D. W. O'Dea, M. L. Conneen & Co. and James Doyle's Sons. Bids are due Monday, February 21. Revised bids have been invited by the same architect on the new edifice to be erected in Langhorne, for the Catholic Church of Our Lady of Grace. Mentioned previously.

The plans for the proposed new architectural school for the University have been approved, and it is expected to have the structure under way within a few months. The faculty, alumni and under-graduates have united in an effort to get together an amount of money to supplement the hoped-for appropriation from the State Legislature. The plans are by Paul Philippe Cret, professor of design at the University and an officer de l'Academie de France, and call for a three-story structure in the Italian Renaissance style of architecture. The Architectural School at old Penn was founded in 1890 and has for 10 years been the largest in the United States. This year the attendance rose to 230, an increase of 35 per cent. over 1908-1909. Its student body has been recruited from 20 different

States, while its alumni are employed in a vast majority of the States of the Union. Dr. Warren P. Laird, a Cornell graduate, has been director of the school since it was founded.

The preliminary plans of Architect Clarence W. Brazer, 1133 Broadway, New York, have been accepted by the building committee for the proposed new edifice, to be erected at Forty-eighth street and Haverford avenue, for the Church of the Holy Comforter. The plans call for a handsome stone structure, in the perpendicular Gothic style. It will contain seven bays and seat about 500 people. A morning chapel will be placed at the south side with a separate entrance on Haverford avenue. Provision will be made for a spacious chancel with seats for forty-five choristers. An ambulatory will join the chancel to the clergy sacristy, and chorus rooms. The woman's choir room will be located on the second floor, also a small nun's gallery. There will be a tower adjoining the vestibule of the Forty-eighth street entrance and is so arranged that the stone rectory containing fifteen rooms, is built into it, with roof lines leading the eye up to the ornamental belfry. In the first story of the tower is placed the rector's study connected by a mediaeval spiral staircase to the vestibule of the church.

Reiley & Steinback, 481 Fifth avenue, New York City, have prepared preliminary plans for a brick and limestone building, to be erected on Lafayette, near Vanderbilt avenue, Brooklyn, New York, for St. John's Roman Catholic congregation. The structure will contain a large hall with a seating capacity of 1500, and twenty-four finely finished and equipped class rooms. A part of the building will also be fitted up for a rectory. The whole will be finely finished throughout and thoroughly equipped with all modern conveniences. The pastor in charge is Rev. George W. Munderein, Greene avenue near Clermont avenue.—Architects Schwartz & Gross, 347 Fifth avenue, New York City, have been commissioned to prepare plans for a handsome apartment house, to be erected on Fifty-fifth street, east of Ninth avenue, New York City. It will be twelve stories high, of fireproof construction, finely finished throughout. The estimated cost is about \$800,000.—Shampan & Shampan, 772 Broadway, Brooklyn, N. Y., architects, have finished plans for the proposed theatre, to be erected at the northeast corner of Douglas street and Pitkin avenue, for Marks & Horwitz. ARCHITECTS' NOTES.

The Calvary Protestant Episcopal Church congregation has commissioned Clinton G. Harris to prepare plans for a two-story parish house, to be built at the southwest corner of Manheim street and Pulaski avenue, to cost about \$20,000.

The Philadelphia Roll Mill and Machine Company, at Twenty-third and Washington avenue, wants bids on a one-story brick machine shop, measuring 83½ x 116.9 feet, to be built at Twenty-third and Washington avenue, to cost about \$10,000.

Peter Kuhn, architect, 3058 North Eighth street, has completed plans for a four-story brick warehouse, 33 x 64 feet, to be built at the northwest corner of York and East Thompson streets, for the Keppler-Fox Foundry Co., to cost about \$15,000.

ARCHITECTS' NOTES.

Druckmiller, Stackhouse & Williams, architects, Land Title Building, have been awarded the competition for the new Pitman National Bank building, to be erected in Pitman, N. J. The design calls for a handsome structure measuring 40 x 46 feet, of granite or marble on the exterior, one story in height with a mezzanine floor at the rear; will be equipped with a large burglar proof vault. The interior will be finished in mahogany, with marble floor and wainscot. The first floor will be devoted to banking and general offices with private offices for president and cashier and room for depositors. The plans will be ready for distribution in two weeks time. The same architects have plans in the course of preparation for a handsome 3-story residence in the Colonial style of architecture, to be built on Broad street above York road. It will be built of brick, with slate roof. The interior will be finely finished in hardwood, with all modern appointments, including sanitary plumbing and tiled baths. The owner's name is withheld.

E. Allen Wilson, architect, 815 Land Title Building, is engaged on preliminary plans for an apartment house to be erected in Germantown for a private owner, at an estimated cost of \$60,000. Building will measure 48 x 135 feet, four stories high, built of brick. First floor to have exchange, reception rooms, living rooms, public and private dining rooms, kitchen and pantries, servants' quarters and the three upper floors to be divided into suites containing three, four and five rooms each. The same architect has plans in the course of preparation for two three-story flat houses to be erected at Fifty-second and Regent streets for John J. Connor, owner and builder. Each building will measure 160 feet front by 62 feet deep and will contain 36 flats of 8 rooms each, all modern improvements. Each flat to be provided with a porch which will be fire-proof. Buildings to have usual courts and fire-towers required, to be designed in Colonial style with stone and brick fronts. Estimated cost is \$100,000. Plans have been completed by the same architect for 18 two-story houses to be built at 63rd & Jefferson streets, for Mr. John N. McGarvey. These houses are 16 x 53 with porch fronts and are finished in hard wood. They will have hot water heat and all modern improvements. Some of them are side yard houses and there will be three corner houses. Mr. McGarvey is now receiving estimates at his office 62nd & Lansdowne ave. Bids have been invited by the same architect from A. Raymond Raff, F. L. Hoover & Sons, Inc., R. Wiggins & Co., Mitchell Bros., Henry P.

Schneider, Ferguson & McDowell, C. W. Rogers, Wm. A. Patterson, Metzger & Wells and F. T. Maguire on a Young Men's Building to be erected at 54th & Lansdowne ave. for the West Park Presbyterian Church. This building has been previously described in these columns. The bids are to be in at noon on March 25th. Plans have been completed by Mr. Wilson for alterations to premises at 7105 Woodland avenue, consisting of the changing of the present property into two stores with flat above. Plans are being made by same architect for stores and dwellings to be erected at Richmond and Croyden streets, for Joseph Vanderslice.

At Bridgeton, N. J., a committee has been appointed by the Board of Education to secure plans for a new school building. The estimated cost is about \$60,000.

C. Harry Kain, architect, Harrisburg Pa., through the Building Committee, submitted his plans for a new building to the Lodge of Elks, which approved the action of the building committee in selecting Mr. Kain's plans. The structure will be 47 x 147 feet, four stories high, of brick with brown stone trimmings, fine interior finish and all modern conveniences will be provided. The estimated cost is about \$40,000.

J. Riley Gordon, of New York City, and Abner A. Ritcher, Lebanon, Pa., architects, have been commissioned by the county commissioners of Lebanon county to prepare the plans for the proposed new court house to be erected at Lebanon, Pa. The estimated cost of the structure is about \$250,000. The plans will be ready for estimates on or about June first. The county commissioners are Harry M. Miller, Aaron L. Horst and William Gassert.

The Senate, Washington, D. C., last week, passed the bill which appropriates \$12,000,000 for the erection of suitable buildings for the use of the State Department, the Department of Commerce and Labor, and the Department of Justice. The site for these buildings will be on ground at the rear of the White House. The plans selected for the structures must be approved by Congress before operations can begin on the construction.

P. F. Kernan, 1201 Chestnut street, has bought for St. Colman's Catholic Church the adjoining property on Lancaster avenue, below Myrtle avenue, measuring 100 x 160 feet. The building will be used as a rectory.

John Scott, attorney, Stephen Girard Building, has purchased the properties at 211 and 213 Market street, for some of the heirs of the Landis estate. Moritz Grossman, who owns 215 Market street, has plans in hand for improvements to the three prop-

erties. It is stated that Watson & Huckel, 1211 Walnut street, are the architects.

William F. Greene, of the Stephen Greene & Sons, printers, northeast corner of Sixteenth and Arch streets, has taken title to the property at 111 North Sixteenth street, measuring 17 x 93 feet. The company purchased the adjoining properties, including 109, 113 and 115 N. Sixteenth street from time to time for the purpose of erecting a new fire proof building in case the city should add the present building to the parkway.

Milton B. Medary, architect, 1414 South Penn Square, has plans on boards for interior alterations to the old College of Physicians building at the northeast corner of Thirteenth and Locust streets, to be occupied by the central branch of the Free Library of Philadelphia, now located at 1217 Chestnut street. It was reported in these columns recently that the Horn & Hardart Baking Co. had leased the present Library site for a long term and would erect a restaurant on the site as soon as the Free Library had vacated.

Preliminary plans by Architect John T. Windrim, 1201 Chestnut street, for the erection of eighty more handsome new dwellings for the Girard Estate to be erected at Nineteenth and Shunk streets, were submitted by George E. Kirkpatrick, superintendent, at a recent meeting of the Board of City Trusts. The plans call for finely finished structures in various different styles of architecture, to cost approximately \$30,000. A plan was also submitted by the superintendent for erecting a coal storage building "in case of any labor troubles." The building proposed will be erected beside the present power plant at Twentieth street and Oregon avenue, and will have a capacity for 5,000 tons of coal, the estimated cost of which is about \$35,000.

C. E. Schermerhorn and Watson K. Phillips, associate architects, 430 Walnut street, have been awarded the competition for a bank building to be erected at Ambler, Pa., for the First National Bank. Drawings and specifications will be prepared at once for a one-story building designed in the classic style, to be built of Indiana lime stone with granite base. The building will measure 45 x 67 feet, and will contain directors' room, president's and cashier's room, ladies' room, saving fund department, safe depositors' department, settlement room, toilets, store rooms, etc. Two vaults will be provided, one for the use of the bank, the other for safe deposit department. The building will be thoroughly modern in its appointments and will contain handsome fixtures, tiled floors, etc.

ARCHITECTS NOTES

The commissioners of Schuylkill county invite architects to submit to them at their office at Pottsville, Pa., for their consideration, separate preliminary plans for an insane asylum and sewage plant, to be erected upon the county property at Schuylkill Haven, Pa. The commissioners will upon application furnish the necessary surveys. The buildings proposed to be erected are to be absolutely fire-proof and to provide for the accommodation of at least six hundred (600) patients. An estimate of the probable amount it will cost to erect said asylum and sewage plant must accompany plans, which are subject to the approval of the state board of charities. All plans must be submitted before 12 o'clock noon, Tuesday, April 26th, 1910, and those which are finally adopted will be paid for. The right is reserved to reject any or all plans submitted. By direction of the county commissioners. Charles T. Straughn, controller.

Miss Elizabeth L. Withers, 2018 North Broad street, has purchased the Shuster property at Woodburne, Pa., consisting of 100 acres.

Charles M. Wells, architect, Rutledge Del. Co., Pa., has completed plans for a stone church, measuring 65 x 80 feet, to be built at the southeast corner of Twenty-seventh and Hagert streets, for the North Penn Baptist Church.

BUILDING and REAL ESTATE NOTES.

The Haney-White Company, extensive dealers in mill work of every description, whose large plant at Broad street and Lehigh avenue, was completely destroyed by the disastrous fire which consumed property to the value of \$650,000 in that vicinity, last Saturday night, announces that its business will in no way be interfered with by the occurrence, as their stock at other warehouses and at the wharf is more than sufficient to cover their present contracts and allow of the filling of as many more new orders as they may be favored with in their usual prompt and reliable manner. The new concrete building which the company is erecting in the same locality was not in any manner injured by the conflagration.

When it is understood that there were no less than sixty-two competitors, in competition with designs for the Robert Fulton Water Gate Memorial, which is to be erected on the Riverside Drive, between One Hundred and Fourteenth and One Hundred and Fifteenth streets, New York, by that city, the fact that Philadelphia competitors were able to win the third and fifth prizes under the conditions imposed by the experts who were purposely selected on account of their ability, is to say the least not only a great compliment to the coterie of architects who represent the necessities of Philadelphia in that line, a victory of no small importance, for it establishes beyond controversy the fact that Philadelphia architects are equal in ability to those in any other city in the country, for the prestige does not depend upon who or who did not win the first prize, for the preference in such a direction is often confined to the artistic fancies as well as their idea of adaptability, and while one of Philadelphia's successful competitors has very graciously complimented the success of Architect H. Van Buren Megonigle, of New York, who was the successful competitor for the first prize, it does not detract even a shadow from either the honor or artistic ability of our successful Philadelphia architects one way or the other, consequently, Messrs. Albert Kelsey and Paul F. Cret, who won the third prize, and Heacock & Hokanson, the fifth, justly merit all the congratulations that can be extended them.

LIABILITY INSURANCE.

The growth of Liability Insurance has been increasing constantly year by year, as shown by the reports of a few of the large companies writing this line, and it is rare indeed to find an employer of labor, who does not see and profit by this form of protection. The builder with the knowledge, that he has guarded all the doors against vexatious suits at law, and probable entry of judgments, enables him to complete all his undertakings, with his credit unimpaired, in other words, he has by this wise provision put a discount upon all unlooked for future trouble, which he could not foresee when making his estimate. We believe that our readers to whom this matter mostly applies, will agree with us, that full opportunity has not been taken of the protecting virtues of Insurance of this kind; that has been done, in New York, Chicago and other large cities. Our attention has been called to what must be considered an important fact, and that is when taking out such insurance—*Be sure and see that you are fully and properly protected.* The trouble being in most cases, when the contractor is brought to consider the subject, he leaves the details to the agent taking the risk, and he never knows, unless he is most careful, whether he is getting what he wants or not. What has been most needed, and which we are now pleased to announce, is specialism. We hear of specialists in law and medicine, and as Liability Insurance is to a large extent controlled by principles of law, it should also be classified as a specialty, by that, we mean, the agent taking the risk must have absolutely familiar knowledge of the line of business, feel the pulse as it were, and prescribe the remedy. In such practice, the assured can place his policy in his safe and forget it. We are pleased to make the announcement that Philadelphia can claim the same distinction accorded New York, in having with us a doctor of insurance. William T. Ritch, Inc., of 1123 Broadway, New York, have opened a branch office in the Philadelphia National Bank Building, 421 Chestnut street. This corporation long established in New York, is the pioneer, in fact, the only corporation claiming the title of being specialists upon the more serious forms of insurance, with all which that distinction implies. The founder, William T. Ritch, has long been connected with the building industry in New York and Connecticut, charter member of the Building Trades Employers' Association, and other building organizations, including the Master Builders' Exchange, of Philadelphia, is therefore not only Ritch in name, but rich in experience in all matters affecting the trades allied with the building industry.

FACTS

For six consecutive years we have been heating homes to the entire satisfaction of the owners with marvelous coal economy.

If we can do that for others, why cannot it be done for you? Low installation cost, no maintenance cost and guaranteed heating results with our installations is a fact.

We can show you a ten room frame house, out in the country, exposed on all sides, that has been heated with our radiators, during the past winter, using but four tons of coal. We would be delighted to take you out to the house at any time. What we want, is to give you an estimate on the heating of your house. No charge for estimate and you will not be obligated to buy. You will have a better heating system than either hot water or steam and not live in terror of water leaks, or freeze ups.

Our literature will be sent you for the asking and demonstration of these few facts given at any time.

OBITUARY.

The death of Mr. Henry Reeves, the senior member of the old firm of builders, Stacy Reeves & Sons, 1611 Filbert street, which was established many years before the publication of this Journal was begun, over a quarter of a century ago, recalls many pleasant recollections of Mr. Stacy Reeves, the originator of the firm and father of the deceased. The old time solidity business capacity as well as integrity which were so characteristically identified with the make-up of Mr. Stacy Reeves himself were so thoroughly ingrafted into the business methods of the concern that they actually became a legacy to his sons who continued the business after his death, hence, there is nothing strange in the fact that the reputation of the present firm is so prominently identified with the building interests of this city. Mr. Reeves was prominently identified with the Master Builders' Exchange, of this city, an earnest worker in its interest as well as its treasurer. Mr. Reeves died suddenly while on a fishing trip to the farm of R. C. Ballinger, at Salem, N. J. His death has caused great regret among his friends and associates whose love and esteem he justly merited. Time and death has made sad havoc among the prominent architects and builders of our city during the last two decades. But there is strongly in evidence a host of capable men in both directions fully equipped to prepare the plans as well as do the building within the possibility of man, however large or extravagant the owner may desire.

"THE SUN DO MOVE."

It has been an open question since civilization began as to whether the sun moves or does not move. It will be recalled that an estimable old colored gentleman who is regarded as a perfect Solon in his way who insisted even up to the hour of his death that "The sun do move," and for all we know

the old gentleman may be up in the Celestial Empire even now doing his level best to get the sun started in some direction to justify his statement. We plead guilty as to our ignorance on the subject, but we do know that the Tile and Marble Mosaic business is at present moving vigorously in the direction of the Italian Marble Mosaic Company, 421-39 Spruce street. This is not only made apparent by the greatly increased number of workmen recently put on, but also by the long line of contracts they have already booked, among which we quote a few as follows: The Zeta Phi Fraternity Building, Thirty-fourth and Walnut street; State House, Dover, Del.; Mt. Sinai Hospital, Fifth and Wilder; Downey Building, Allentown, Pa.; High School Building, Siegfried, Pa.; Campus Club House, Princeton, N. J.; Dormitory Buildings, Princeton, N. J.; store building, 708 Market street; Peoples' Trust Company Building, Twelfth and Arch streets; restaurant building, Hershey, Pa.; Presbyterian Home Fifty-eighth street and Greenway avenue; residence, Mt. Holly, N. J.; Glenside National Bank, Glenside, Pa.; post office, Stroudsburg Pa.; residence, Ridley Park and Collingdale Pa.; Orthopaedic Hospital, Seventeenth and Summer streets; post office, Toledo, O.; hospital 512 N. Fourth street; Methodist Hospital, Broad and Wolf streets; Cohen drug store, Logan, Pa.; Horn & Hardart restaurants, 134-36 Market street and 246 N. Broad street; Bacharach office building, 1510 Chestnut street; saloons, 623 Pearl street and corner Eighth and Linden streets, Camden, N. J.; Elias' residence, Elkins Park; First Church Christ Scientist, Fortieth and Walnut streets; office building, Allegheny avenue below Glenwood; Hurley's residence, Collingswood, N. J.; Almshouse, Scranton, Pa.; Court House, Bridgeton, N. J.; store buildings, Sixteenth and Walnut streets; Haas Hotel, 106 N. Fifteenth street; First National Bank, Milford, Del.; saloon, Clarion and Fitzwater streets; Morris Building, Broad and Chestnut streets; Grace Evan. Lutheran Church, Roxborough, Pa.; garage buildings, Broad and Callowhill streets; engine room, Pennsylvania Railroad, 1511 Market street; Gettysburg National Bank, Gettysburg, Pa.; Manufacturers' Club, 1400-09 Walnut street; Baltimore post office, Baltimore, Md.; saloon, Second and Wharton streets; saloon, 953 S. Sixtieth street; residence, Thirty-third and Norris streets; residence, Camden, N. J.; Y. M. C. A. Building, Camden, N. J.

FACTS

For six consecutive years we have been heating homes to the entire satisfaction of the owners with marvelous coal economy.

If we can do that for others, why cannot it be done for you? Low installation cost, no maintenance cost and guaranteed heating results with our installations is a fact.

We can show you a ten room frame house, out in the country, exposed on all sides, that has been heated with our radiators, during the past winter, using but four tons of coal. We would be delighted to take you out to the house at any time. What we want, is to give you an estimate on the heating of your house. No charge for estimate and you will not be obligated to buy. You will have a better heating system than either hot water or steam and not live in terror of water leaks, or freeze ups.

Our literature will be sent you for the asking and demonstration of these few facts given at any time.

A. R. Hallmann will erect 208 two-story brick dwellings, at Seventy-first and Seventy-second and Elmwood avenue. The plans are now being prepared.

Reading, Pa., will erect a new library, to cost \$75,000, the gift of Mr. Andrew Carnegie. William Rick, the Mayor of Reading, can give additional information.

At Bayonne, Hudson county, N. J., Mount Vernon Lodge, I. O. O. F., has decided to erect a three-story temple, at Broadway and Twenty-ninth street, to cost \$25,000.

Clyde S. Adams, 1237 Arch street, is engaged on plans for a three-story brick factory addition, at 1234-36 Appletree street, for Elliott & Company, to cost about \$15,000.

The St. John Methodist Episcopal Church has sold a lot, 160.5 x 52 feet, on the east side of Eleventh, below Roy, for \$2,500, to George W. Zepy, who will improve the same.

The Y. M. C. A., of Summit, N. J., has selected a site at Park avenue and Maple street, on which to erect a new building for the use of the association. The estimated cost is \$75,000.

At Jersey City, N. J., the will of the late Mrs. Mary C. McBrides leaves \$50,000 to St. Francis Hospital, to be used for the erection of a building for the treatment of tuberculosis.

Milligan & Webber, 520 Walnut street, are engaged on plans for the completion of the chancel and tower of the Protestant Episcopal Church of the Resurrection at Broad and Tioga streets.

Thomas, Churchman & Molitor, 1309 Walnut street, and Hewitt & Paist, Bullitt Building, have entered the competition for the proposed new Masonic Home, to be erected in Elizabethtown, Pa.

Hewitt & Paist, architects, Bullitt Building, will not invite bids until fall on the proposed ten-story brick and stone addition to the St. Charles Hotel, in Atlantic City, N. J., to cost in the neighborhood of \$500,000.

J. Frank Bradley, Hale Building, 1326 Chestnut street, will distribute plans in a few days for a two and a half-story stone and frame dwelling, to be erected in Oak Lane, for H. J. Smith, to cost about \$5,000.

Stearns & Castor, Stephen Girard Building, have been engaged to design six three-story brick porch front dwellings, to be erected on the west side of Broad, above Duncannon avenue, for E. S. Radley, to cost about \$50,000.

De Armond & Ashmead, 618 Chestnut street, have plans on boards for a two and a half-story residence, 22 x 40 feet, to be erected in Swarthmore, Pa., to cost about \$6,000. The name of the owner is withheld for the present.

Mrs. Katharine Clemmons Gould has deeded her estate, near Lynchburg, Va., to the Katharine Gould Industrial Farm, a New Jersey corporation, for the establishment of an industrial school for boys and girls. The estate contains 1,400 acres.

Solomon Greenberg, Land Title Building, has bought the property at the northeast corner of Thirty-sixth and Powelton avenue, measuring 50 x 178 feet, upon which he will erect an eight-story flat house, for which the plans are now being prepared.

J. M. Chester, Ocean City, N. J., will erect a three-story brick building on the south side of Eighth street, Ocean City, between Asbury and Central avenue, at a cost of \$20,000. The first floor will be fitted up for the postoffice and the other floors as apartments.

Charles C. Augle has purchased nine tracts of ground at the northeast corner of Fifty-eighth and Pine streets, upon which he proposes to erect about eighty two-story brick porch front dwellings, to cost about \$300,000, from plans by Architect J. Frank Bradley, 1326 Chestnut street.

Frank Seeberger, 814 Arcade Building, has completed plans for two two and a half-story stone dwellings, to be built in Queen Lane Manor, to cost about \$8,000 each. The same architect has plans on board for a two and a half-story stone residence, 39 x 42 feet, to be built in Bala, Pa., for John Haubert.

It is said that the Board of Education of Ridgefield Park, Bergen county, N. J., will receive plans until May 20th, for a brick school building, to contain twelve rooms; also basement. There must be a large assembly hall, rooms for manual training and offices. Adolph Freud, Jr., District Clerk.
